1. The request filed on July 08, 2002 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/445,542 is acceptable and a CPA has been established. An action on the CPA follows.

2. Claims 1, and 4-13 are now pending in this application.
Claims 2, 3 and 14 have been cancelled.

3. Claim 5 is drawn to the elected species.

Claims readable on the elected species are 1 and 4-5.

Claims 6-13 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 6, filed January 08, 2001.

The restriction requirement has been made final.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1651

Claims 1 and 4-5 stand rejected as recited in the Final Rejection under 35 U.S.C. 102(b) as anticipated by the references recited in the Final Rejection Office action of October 15, 2001.

The arguments have been deemed not to be persuasive in view of the claimed language. The claims read only on a composition containing the two components which references anticipate thus rendering the claims unpatentable over cited references absent a showing to the contrary.

Applicant has argued that the references do not contain the statement "antiestrogenic activity against E2-induced abnormal cell growth" which statement is an inherent property of the essential oil, eugenol.

Applicant will not be able to obtain a composition claim drawn to the two agents in the compositions as claimed even if Applicant submits a separate application drawn to each of the essential oils.

It appears very unlikely that the Board of Appeals would overturn the present rejections based on the current record.

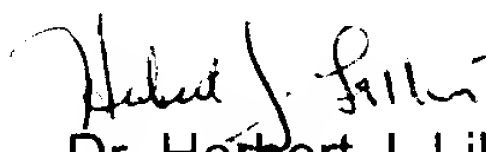

5. This is a CPA of applicant's earlier Application No. 09/455,542. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1651

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Lilling whose telephone number is (703) 308-2034 and fax number is (703) 308-4242 or SPE Michael Wityshyn whose telephone number is (703) 308-4743. Examiner can be reached Monday-Thursday from about 5:30 A.M. to about 3:00 P.M. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196.
